ETI Compact On/Off Thermostat

Cod produs / Product code: ETI

Manufacturer: OJ Electronics

Compact on/off thermostat from OJ Electronics for industrial applications, dedicated to controlling a single electric heating element. Ideal for pipe frost protection and control of pumps or compressors.

Technical specifications

CONTROL	On/off, single heating element
MAX. ELECTRICAL LOAD	10 A / 2,200 W
RELAY	Built-in changeover relay - can also work as a cooling thermostat
TYPICAL USE	Pipe frost protection, pumps, compressors
BUILD	Robust, low maintenance
COMPATIBLE SENSORS	ETF-x22/44/99
